

Geography curriculum overview – Year 7 to Year 11 (2023/2024)

Intent: To create accomplished and excellent geographers through a diverse and engaging curriculum. Students will be able to analyse and evaluate data from a range of sources and place this within the context of the global, local and current environments in which they live. Students will develop an understanding of a range of cultures, people and places and have the analytical skills to understand the differing impact of a range of geographical events. The skills that are developed throughout the Geography curriculum will equip students for the future.

An expert geography can:		Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
1. Apply case study knowledge to geography concepts or processes 2. Evaluate a range of examples and place them within the context of the world around them 3. Analyse the world through a geographical lens 4. Demonstrate developed understanding	Year 7	Geographical Skills	Birmingham	Plate Tectonics	China	Middle East	Geographical Mysteries Local Fieldwork
	Year 8	Africa	USA	Population and Migration	Rivers and Flooding	Coastal Zones	Fake News
	Year 9	Oceania	Factfulness	Urban V Rural	Global issues and solutions	Global issues and solutions	Fairtrade
